R720 Lumeric

The Ring To Rule Them All

One Size Fits All

The benefit of the R720's large form factor is two fold. Not only will the R720 work with the largest cinema lenses, but also it will create large, beautiful catchlights in the eye of your subject.

Center Opening
290 mm

The Perfect Beauty Ring Light

Because of its ring light properties and its diameter the light emitted by the R720 Lumeric wraps nicely around the subject and is the perfect beauty light. The unique catchlight highlight to the subjects eyes adding a special sparkle.

Be Creative Anywhere

Battery Powered

The R720 is the perfect companion on the road. The unit can be powered by two, small, NP-F Li-ion batteries. You can even power the unit with one battery, and the R720 will precisely adjust the number of illuminated LEDs to 360.

Precise Control

LCD Display

An illuminated LCD displays both intensity and CCT. Dial in your perfect settings everytime.

Make it Fit Your Needs

With optional accessories and extended functionalities you can make your R720 the best tool for your needs. The WiFi module will not only add the possibility to control your R720 by an APP or dedicated remote but also adds the independent Quadrant Control to create unique lighting effects controlling the four quadrants individually regarding brightness and even color temperature in the Bi-Color model.

WiFi Module & App

Independent Quadrant Control

Much More Than Just a Ring Light
